Hackathon Competition Rules

- Attendance in On-Campus phase is mandatory.
- Teams are expected to bring their own Laptops to work on. Sitting place, Internet connectivity and electrical power will be provided by CUST.
- Each team will select only ONE problem to work on and develop its solution.
- Teams are allowed to use pre-built libraries, frameworks, or AI tools. However, no software tools, libraries or hardware will be provided by CUST.
- Each project will be evaluated by 3 judges according to pre-defined criteria and rubrics. Decisions made by the judges will be final and binding.
- No judge is selected from CUST – All judges are from industry.
- Final round will be presentation based and it will be live streamed.
